RULES : [Logging In](#) | [Market Order Percentage](#) | [Nominations](#) | [Candidates](#) | [Miscellaneous](#) | [Advisor Responsibilities](#)

Logging In [\(Back to Top\)](#)

1. An investor, prior to entering the secure website, must have sent a completed application and check to the Fund. Upon receipt of the application, the investor will receive an e-mail with their account number. This is the only way to enter the website.
2. The next step for the investor will be to create a User ID and Password. This will identify you on the comment boards and chat rooms. Returning Investors will log onto the Secure Web Server using their User ID and Password.

Market Order Percentage [\(Back to Top\)](#)

3. All Investors must vote for the Market Order Percentage each time they log onto the Fund website, but no more than once per day. The Market Order Percentage is the percentage of outstanding shares needed to move a Candidate stock to a Market Order for purchase or sale.
4. Investors determine the Market Order Percentage by daily voting, not the Fund Advisor. It will reflect the Investor's attitude of buying and selling stocks in changing market conditions.
